# LEARN, GROW, BOND, & HAVE FUN WITH YOUR DOG!

For your K9's skilled professional trainers use methods that emphasize compassion, communication and an appreciation of the dog's perspective. Good communication and mutual respect are key for any relationships' success. We help people develop good communication skills to enhance the dog/human relationship and have fun learning new skills in a calm, relaxed environment. We believe dog training is a journey meant to be enjoyed and cherished. We are deeply intertwined with one another and emerge out of relationships with not only people, but every species. Our training philosophy is based on Suzanne Clothier's Relationship Centered Training (RCT) approach, which promotes a relationship of harmony and mutual respect between humans and dogs.

*They have a class for everyone, from the novice 1st time dog owner to serious dog sport competitors.*
